PROGRAM

COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

MAIL STOP ISSUE FEE
COMMISSIONER FOR PATENTS
P.O. BOX 1450
ALEXANDRIA, VA 22313-1450

SIR:

Applicants acknowledge with appreciation the indication of allowability of the claimed invention. In response to the Examiner's Statement of Reasons for Allowance in the Notice of Allowability of November 5, 2008, Applicants respectfully submit the following comments:

In the Notice of Allowance on page 3, section 2, third paragraph, the examiner states the following:

“As to claims 1, 2, 4-6, 8, 12, 13, 15-17, 19, 23-24, 26-28, and 34-47 neither Sugiyama nor Bist, nor Sriram et al., teach nor suggest an electric power calculator configured to calculate electric power values of the plurality of first weighted error signals respectively, and wherein the quantization method selector compares the electric power values of the plurality of first weighted error signals with one another, and selects a given quantization method from among the plurality of the quantization methods based on a result of the comparison.”

This statement contains a description of the invention that is not strictly correct. Because there are no other “weighted error signals” recited in any of the claims, it is erroneous to state twice that there are “first weighted error signals”. A correct recitation should delete “first” and simply recite “weighted error signals”.

Application No. 10/500,103

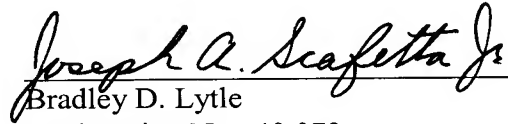

Reply to Notice of Allowance of November 5, 2008

Furthermore, this statement refers only to apparatus claims 1, 2, 4-6, 8 and 34-47.

The statement does not refer to either method claims 12, 13, 15-17 and 19 or medium claims 23-24 and 26-28. Thus, no statement was made as to why the method and medium claims were allowed.

Respectfully Submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
